

Kreative Organics

Quality. Value. Delivered.

QUALITY - With a rigorous approach to quality and regulatory affairs, Kreative has become a reliable supplier of choice to many of the top pharmaceutical companies in both regulated and semi regulated markets. We shipped our first product to the US in 1991 and have not looked back since then. Today we supply APIs to companies like Sanofi, TARO, Teva, LNK Pharma, Abbott, iNova, Boehringer Ingelheim, APSEN, EMS, Cristalia, Adcock, Sun Pharmaceuticals, Dr Reddy's, Cipla, Zydus Cadila, Aurobindo, Alembic and many more.

VALUE - Kreative has a world class R&D team that is constantly working on improving competitiveness of our existing products and also working on developing competitive, green processes for many new products that are currently in Kreative's pipeline. To this end, Kreative has started to develop the key starting materials (KSMs) for all of our products- current and pipeline so that we have a better control of cost and quality.

DELIVERED - Kreative commits to deliver quality and value, on time everytime. No surprises.

KREATIVE PRODUCTS

Name	Pharmacopeia	Therapeutic Category	USDMF	EDMF	CEP
